

Certificate Course in 'Decoding Commodity Market'

This Certificate Course will help you to be Smart & Confident to make a smart financial plan for your future

We all have an interest to know & understand the price fluctuations of different Commodities and how that will impact us... like -

- ✓ **If silver price will go up in few days, have I to buy at lower price now??**
- ✓ **If petrol prices are going to increase in the immediate future then should I go for a diesel car??**

You need to make a decision for many such questions...and that too, a wise decision for future for the planned expenses as well as to challenge the uncertainties.

These commodities traded in Market with SEBI regulation are not for Consumption but only to understand and refer the price difference.

When earnings get stuck, we used our savings in Lockdown period. How to plan for this type of situation?

An interesting tricks and case studies will be shared with you in this Certificate Course that will help you to plan & take a wise decision to safeguard your future.

Enrol to know more about it!
