

## **GREEN CAMPUS POLICY**

A "Green Campus" is a location where sustainable and eco-friendly practises are promoted through education and environmental friendly practises. An institution has the chance to take the lead in redefining its environmental culture and creating new paradigms by adopting the "green campus" idea through developing long-term answers to humanity's needs in the areas of the environment, society, and the economy.

### **AIMS AND OBJECTIVES**

- The college is working to make its facility self-sufficient in terms of water, and sanitation.
- Together, the faculty, staff, and students must work to create a sustainable, eco-friendly campus and spread the idea of eco-friendly culture to the surrounding area and elsewhere as appropriate.
- Establishment of climate awareness among students and employees regarding environmental challenges.
- Based on the principles of Reduce, Reuse and Recycle, sustainable management practices could be implemented.
- To inculcate the awareness regarding environment amongst staff and students.

### **RESPONSIBILITIES**

- To engage students in various environmental awareness activities and sensitizing time towards sustainable solutions.
- Faculty itself observes the celebration of various commemorative days to encourage earth friendly attitude.
- The clubs and committees of the college should undertake activities to vitalize environmental protection.
- The maintenance staff cleans the entire premises regularly.

### **STRATEGIES AND IMPLEMENTATION**

#### **Clean and Green Campus:**

- The college has maintained a clean and green campus by prohibiting the use of Tobacco and Tobacco Associated Products in the campus premises.
- Sign Boards are placed across the campus to highlight the accountability of every individual.

Upper Govind Nagar, Malad (East), Mumbai – 400097  
*Affiliated to University of Mumbai*

- Tree plantation drives are conducted at regular intervals.
- Clean-Up initiatives must be conducted in and around campus.

**Energy Solutions:**

- The college encourages staff and students to use public transportation in order to reduce emissions.
- Before entering the vehicle on college property, college staff and faculty are required to have a current PUC certificate.
- College infrastructure is planned to use the maximum sunlight.
- To inculcate the habit of turning-off the electrical appliances when not in use.
- Maximum use of LED lights to reduce the consumption of energy.

**Solid Waste Management:**

- The 3R's Principles are followed.
- Trash reduction practices are carried out annually and paper wastes are sent to the shredders.
- E-wastes are collected from the campus and send to the nearby major collection units.

**Water Conservation:**

- Rainwater harvesting is done structurally.
- To inculcate the habit of turning-off the taps when not in use.
