**Date: - 17-07-2020**

**Report On FDP**

**TOPIC - GOOGLE MEET & GOOGLE CLASSROOM**

The complete lockdown implemented in all the areas including the education areas created havoc all over the world. The lockdown for the world proved to be a long vacation for the students which they enjoyed initially but later came into a humdrum situation. Taking the situation into consideration, G.D. Jalan College teachers initiated online teaching so as to keep the students engaged in some or the other learning's and activities. The teachers collected and compiled the data to make E-Content for the students which was developed in the form of interactive presentations and videos. This encouraged the students to actively engage themselves in some or the other forms of learning's. Though this was a new initiation by the teachers across the globe, G.D. Jalan teachers made the most of it. This COVID crisis bought a new learning method for the students, but before that, a totally different way of teaching for the teachers as well.
